LUNG TONIC

INCORPORATED
BY ROYAL CHARTER
A.D. 1843.

CONFIRMED & ENLARGED
BY ACTS OF PARLIAMENT
A.D. 1852 & A.D. 1863.

This is to Certify that

Walter Tom Owbridge.

Kingston - upon - Hull.

Is a Member of the

PHARMACEUTICAL SOCIETY

of Great Britain

Thomas Hyde Dille President.

Alex. Bottle Vice President.

Registered January 7th 1874.

No. 5779

Chas. Brewster Registrar.

THE ONE PENALTY OF SUCCESS.

IT has been well said that a poor thing is never imitated: but that imitation is sincere flattery. Ever since the recommendation of those who used Owbridge's Lung Tonic for coughs, colds, and chest complaints began to create a demand for it all over the Kingdom, imitations and copies have existed. Every offer of a substitute for Owbridge's Lung Tonic is a testimonial to the merits of the real article.

On account of the way in which substitutes are sometimes pushed, it is necessary to offer a few remarks on the subject. One of these is that Owbridge's Lung Tonic has the guarantee of forty years' public approval; substitutes have no guarantee but the word of the vendor. Another is that the genuine Owbridge's Lung Tonic is always the same, wherever sold, whereas every substitute has its own formula. A third remark is that the genuine article is distinguishable by its registered trade mark—an oval, or large capital O, enclosing the words "Owbridge's Lung Tonic—for Coughs—for Colds." No one, therefore, need be misled.

Substitutes would not be offered for Owbridge's Lung Tonic if it had not established a reputation. It is for coughs, colds, bronchitis, influenza, asthma, and whooping cough. These ailments are not to be trifled with. Always keep the remedy handy. Now is the time when some other article will be offered in place of Owbridge's. Do not accept it. A bottle will be sent post free on receipt of price, if your chemist cannot supply you.

FANCY EMBROIDERY STITCHES

Double Herringbone Stitch

Is best worked in two colours, first one, then the other & from left to right. Inset needle horizontally from right & make stitch, bring thread down to right, make another, bringing needle out under where the last went in, the 2nd thread is worked over where the other crosses.

Coil or Bullion Stitch

Bring needle up and full length of thread, winding the thread several times round the needle, and inserting it about a $\frac{1}{4}$ inch below where it was brought up.

Filling Stitch

Is very simple & effective. Stitch (see Chain Stitch Herringbone worked the inner loop of best to rule two

it is just two rows of Chain & Herringbone) with from side to side on the chains. It is parallel lines.

Work Bag worked with Filling Stitch & Double Herringbone Stitch

WE NEVER PAY for TESTIMONIALS

In any way, form or circumstances.
We do not solicit them, nor do we
publish them without permission.

W. T. OWBRIDGE, LTD., THE LABORATORY, HULL.

Marland St. Peters, Torrington.

"I have had a wide experience of your Lung Tonic both before marriage and since, never using any other. I do not feel safe without a bottle of same always at hand. Whenever any symptoms of lung trouble appear, either in myself or my children, I at once resort to your Lung Tonic, and the results are wonderful if directions are carried out. My children have weak lungs—suffering from croup chiefly—but your Lung Tonic always puts them right."

(Mrs.) A. HOULT.

Knockholt, near Sevenoaks.

"I have often thought I would send and tell you what a lot of good your Lung Tonic did for my daughter. She used to be always having colds when about 9 years of age. I happened to meet a friend who, when I told her I was going for some cough mixture, advised me to try your Lung Tonic. I did so, and have done ever since. She is now in her twentieth year, and a fine strong girl, but she always has some of your Lung Tonic when she gets a cold. I take it myself, and recommend it to my friends."

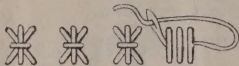

M. C. WHITE.

SOLD BY CHEMISTS AND STORES EVERYWHERE.

FANCY EMBROIDERY STITCHES

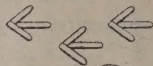

Cluster Stitch.

Draw out your design first. Make the stitches $\frac{1}{4}$ inch long, group three together, then with another coloured thread tie them through the centre (see illustration).

Honeycomb Stitch.

Arrowhead Stitch.

This stitch should be worked with the arrow pointing to the left, and is merely three stitches all meeting at the arrow point, with the centre stitch a little longer than the other two.

Begin on left. A series of loosely worked buttonhole stitches are worked, then worked back from right to left. All stitches should be equal in length, the needle passing in behind the loop of previous row, & out a little lower down with thread under needle, illustration clearly shows.

Child's Bonnet worked with Cluster Stitch

EARNING A REPUTATION.

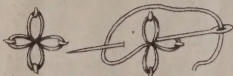

ONE of the greatest authorities on the subject says: "You can sell anything by advertising; but you can only keep up the sale by merit." This is a fact known by all business men. The same authority adds: "The cost of making the first sale is so high that there would be a loss, and not a profit, unless the article sold itself by its own good qualities when once introduced."

This has been the experience with one of the best known home remedies: Owbridge's Lung Tonic. In almost every one of the thousands of testimonials received and published for it (not one of which has ever been paid for) the writer says that he or she will always recommend Owbridge's Lung Tonic. These recommendations, which the Lung Tonic has earned for itself, are what gave it its great reputation, and raised it from the position of a cough mixture sold to his own few customers by an ordinary chemist in Hull (the late Mr. W. T. Owbridge, M.P.S.) to that of a world-famous medicine, recognised by its trade mark. In order to be sure of obtaining the genuine article, which is so highly praised for coughs, colds, bronchitis, asthma, whooping cough, and similar lung and chest complaints, purchasers should look for this registered trade mark—an oval, or large capital O, with the name Owbridge's Lung Tonic inside it. The prices range from 1s. 1½d. for the smallest bottle to 11s. for the largest. Now that the autumn change of weather is at hand, it is wise to have Owbridge's Lung Tonic in the house, ready for any outbreak of coughs, colds, or influenza.

FANCY EMBROIDERY STITCHES

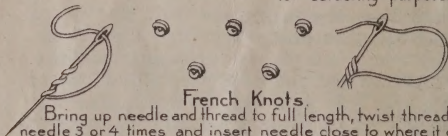

Tied Loop Stitch

All stitches are marked from the centre, insert needle, make a loop & tie it down with a small stitch, this makes a pretty background if work is regular

Button-Hole Stitch.

If you look at the illustration it can easily be seen how it is worked, one long and one short stitch, the thread always going under the needle, it is mostly used for bordering purposes.

French Knots.

Bring up needle and thread to full length, twist thread round the needle 3 or 4 times and insert needle close to where it came up, as illustration clearly shows.

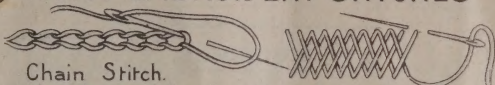

Baby's Bib worked with Button-hole Stitch & Tied Loop Stitch.

FANCY EMBROIDERY STITCHES

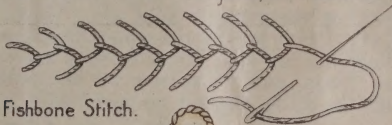

Chain Stitch.

Is a simple stitch composed of a series of loops the thread coming out of each loop, inserting the needle at side of each, with the thread under the needle.

Variation of Herringbone Stitch.

Is worked from left to right in the same way as Herringbone stitch, but closer together, as illustration.

Fishbone Stitch.

Is similar to Coral Stitch much longer, the illustration is done.

but with the outside stitches shows clearly how the work

Pin Cushion worked with Chain Stitch.

THE fact that the inventor of OWBRIDGE'S LUNG TONIC was himself a Pharmacist is a guarantee of the medicinal value of the preparation. This has also been proved by many years public experience, and the constantly growing demand for it.

EVIDENCE.

34, Penrith Road, New Malden,
15/1/14.

"Just now I have had special opportunity of appreciating the value of your Lung Tonic. For some days I have had all the symptoms of a severe cold upon me, but have taken three or four doses of the Tonic, and have kept at my work all through the trying weather we have had."

FRED W. LEWIS.

41, Llanfair Road, Canton,
Cardiff, 16/1/14.

"I feel it is my duty to write and let you know the great benefit I have derived from taking your Lung Tonic. I work in a very cold and damp place, and I am often catching colds on the chest and lungs, but a few doses of the Tonic put me right. I always have a bottle ready for use at home, and I always recommend it to anyone who needs it."

BERT. SMITH.

13, Ducie Street, Ferndale Road,
Brixton, S.W.

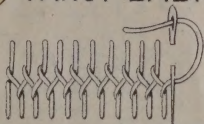

"I have used the Lung Tonic for a number of years, and have always found it a sure cure for influenza, etc."

ERNEST F. BRAY.

FANCY EMBROIDERY STITCHES

Double Buttonhole Stitch.

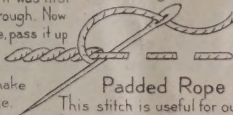

Draw two parallel lines, bring needle and thread in centre of the lines & make buttonhole stitch by putting needle in at upper line, & out again, just above where it was first brought out, draw stitch through. Now put needle through lower line, pass it up a little below where it started, a little to the right, draw stitch through and make next stitch from the top line.

You first work from top line, then from bottom.

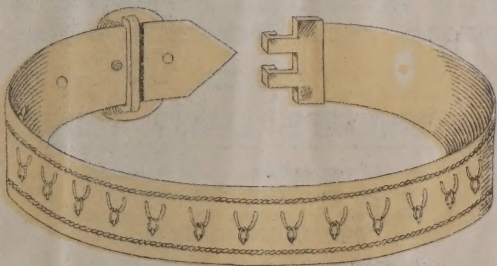

Tête de Boeuf Stitch.

First make a loop, then at end of loop bring out the needle & insert it close to the same spot, making a smaller loop which is tied with a small stitch.

Padded Rope Stitch.

This stitch is useful for outlining. Run a length of coarse thread making large stitches on right side of material & short ones on underside, so as to get as little break as possible between the runnings. Then work over same with stem stitch (illustration explains).

A Belt worked with Padded Rope Stitch & Tête de Boeuf Stitch

People say: MY GRANDPARENTS TOOK

OWBRIDGE'S LUNG TONIC.

MY PARENTS TAKE IT.

AND I TAKE IT.

DO YOU TAKE IT?

It is universally admitted to be one of the indispensable things, and found almost in every home. Highly valued and appreciated by every user. If you have never tried it,

DO SO NOW!

THE RESULT WILL SURPRISE YOU.

IT IS SOOTHING and COMFORTING for
COUGHS, COLDS, BRONCHITIS, &c., &c.

OWBRIDGE'S LUNG TONIC

is sold everywhere. It is largely
imitated on account of its popularity,
therefore be careful not to buy an
— IMITATION, but ask for —

"OWBRIDGE'S."

OWBRIDGE'S LUNG TONIC

FANCY EMBROIDERY STITCHES

Double Coral Stitch. Care should be taken to keep work a uniform width, rule three lines, bring the thread up in centre, form into loop, hold loop down with left thumb, insert needle making another loop on left, a short distance from where the needle came up, bringing it out in a slanting direction and over the held down thread. Repeat to right and left, this is worked perpendicularly.

Fancy Stitch is worked from left to right and makes a very pretty design if worked in rows. This stitch can easily be copied from the illustration.

Open Loop Stitch.

It is always as well to draw lines to ensure keeping work even and straight. This is worked from left to right. Make the loop, then the stitch which holds the loop, when row is completed, reverse and work same underneath.

Child's Pinafore worked with Double Coral Stitch & Open loop Stitch

HÆMORRHOIDS

(OR PILES).

A Certain Remedy for these painful and distressing excrescences is undoubtedly to be found in

OWBRIDGE'S HÆMORRHOIDYNE (OR PILE SALVE).

The relief almost immediately experienced after the first one or two applications is almost beyond belief.

IT CAUSES NO PAIN NOR INCONVENIENCE.

Persons who have suffered for years, and have tried various remedies, express their surprise and satisfaction after using the first bottle.

A WONDERFUL SALVE.

ONE APPLICATION GAVE INSTANT RELIEF.

TESTIMONIAL.

EXTON, OAKHAM.

"I think it but just you should know the benefit I have received from ONE BOTTLE of your HÆMORRHOIDYNE. I got more relief from one application than I did from all other medicines I tried for years. One bottle cured me, and I am glad to tell you I have never wanted another, although I had Piles so bad I could scarcely do my work. You are at liberty to use this as you wish.

Yours truly, J. K."

Post Free, 1s.

Sold by most Chemists, Patent Medicine Vendors, and Drug Stores; or will be forwarded post free on receipt of above amount.

OWBRIDGE'S PILLS

OR

"ATOMS OF HEALTH."

NO class of complaint is more prevalent in England than Hepatic or Liver Complaint, whilst there are none which are so freely tampered with or so seldom cured; and it is to the removal of this affliction that these pills are more particularly, although by no means exclusively, directed. As a tree is known by its fruit, so is the disease or derangement of an important organ recognised by the symptoms. Those of the Liver are pain at the top and between the shoulders, weight and oppression on the right side, flatulency, irregular appetite, giddiness and pains in the head, bad taste in the mouth, costiveness, lowness of spirits, palpitation and general prostration. To remove these the liver must be acted upon so that its functions may be performed naturally and regularly. Nothing will do this like Owbridge's Pills, and nothing acts upon it so safely, so surely, and so beneficially.

IN CASES OF ALCOHOLIC EXCESS THERE IS NOTHING SO GOOD AS A FEW DOSES OF THESE PILLS. TRY THEM AND YOU WILL NEVER BE WITHOUT THEM.

A FREE SAMPLE BOX will be forwarded to any Address on receipt of Name and Address.

Should you not find them beneficial, we do not ask you to continue using them, but, having every confidence in their merit, we are certain that a fair trial will prove their value.

THEY WILL RECOMMEND THEMSELVES.

Should you experience any difficulty in procuring these pills from your chemist, we shall be pleased to forward them to any address,

Post Free, Is.
